

Moringa

THE MIRACLE TREE

Interview & Testimonials

PART 4

I have never considered myself a health fanatic. I take the usual assortment of vitamins and supplements, but it's never been a big focus for me. I'm not generally interested in multi-level marketing endeavors. So why, you might ask, am I involved in Zija? First of all, I've personally experienced a quantum improvement in my health after only one month of use.

- I've had chronic cutaneous lupus for over 10 years, using strong corticosteroids creams, the kind that warn, "Do not use on the face unless instructed by your doctor." For this, I was also taking the anti-malarial drug, *Plaquenil*®, two different tetracycline pills, plus various antibiotic and retinoid creams. After one month of drinking Zija and also using it topically, the lesions are all but healed. I stopped using all lupus medications when I started using Zija.

- I had been taking blood pressure medication for five years. Now I take none, and my blood pressure is normal.

- I was taking *Cymbalta*®, a new designer drug approved for fibromyalgia. Now I take none, and I have no pain, no chronic exhaustion, and no numbness or tingling in my hands and feet.

- I was taking 60 mg/day of *Armour*® for thyroid. I don't need it anymore.

- I used to spend at least an hour waking up, drinking coffee and trying to get

focused. Now I get out of bed alert and energetic. Sometimes I even forget to drink my coffee. My family can attest to the difference in that behavior. My motto used to be, "Give me my coffee and no one gets hurt!"

- My sleep was often disturbed and eight hours used to be just barely enough for me. Now I sleep like a baby and wake up refreshed after six hours, eager to start the day. And I'm no longer fighting off the urge to sleep as I sit at my desk in mid-afternoon.

So why not just buy the product, why be involved in the business? My three reasons...

1. The retail cost of drinking Zija for a month is less than half the retail cost of all the prescriptions I was using. However, because our health-care system does not cover nutritional supplements (no matter how effective they are), my net cost is more expensive. Participating as a distributor provides the opportunity to get my Zija paid for.

2. This product is too good to keep to myself! I have provided samples to my friends and family and they want to be in on it too. The Moringa really is a "miracle tree," but who's going to believe it until they have experienced it? I certainly didn't!

3. I truly believe that by expanding the use of Zija, I am contributing to better mental and physical health for my community, adding vibrancy, joy and well-being to the world, and creating peace and prosperity. Not a bad hobby!

PEOPLE HELPING PEOPLE

Mother Moringa and her global healing benefits resonated with me instantly. It was "love at first sight" and my heart told me three words: *Truth, Integrity, Opportunity*. I wanted to share her gifts, so I became a distributor immediately. Before I received my first case for my family to try, I had already ordered another five cases to distribute to enthusiastic consumers. Three months later, I am still ordering five cases on a regular basis, while several others are now ordering for themselves. The momentum and healing properties behind this product are incredible. We are all enjoying its benefits.

Quite frankly, the business aspect did not stimulate my interest at first. Now, I have learned this company is about *people helping people* in all ways, including financially. I am proud to be working with other natural-health practitioners and regular folks supporting each other in health and well-being. Getting involved with Zija has broadened my horizons and challenged me to learn computer and networking skills that have now become second nature.

I feel like a "facilitator" or a "messenger" rather than a distributor for Zija and for this beloved, miraculous Moringa. This ancient tree was healing people all around the

zija™

equatorial world long before modern medicine. She is here to help us reach our optimal balance, and a clearer and cleaner body, mind and spirit, and to raise our vibration. By using and sharing Zija you can enhance your health and your wealth. Remember those three words of wisdom: *Truth, Integrity, Opportunity!*

—Sara Gibbs • Big Sky, MT

IBS GONE; LIVER & BLOOD SUGAR NORMALIZED

I have a passion for healing. Additionally, it is the mission of One Wellness to find the best of the best and promote these products to restore health. Zija has been our greatest discovery!

My good friend Timothy introduced me to Zija after seeing his 25 years of irritable bowel syndrome and migraines disappear after five weeks on the product. For me, it has healed an issue with my liver, which started 18 years ago, leaving me hospitalized for three days. I had not been able to tolerate sugar and carbs well since, without severe fluctuations in my blood sugar. After six weeks on Zija, my blood sugar is “straight-lined” no matter what I eat. So when people say this product is too expensive, at about \$3/day, I can honestly say, “Hey, Zija healed my liver for under \$200!”

—Matthew Fischer • Helena, MT

INFLAMMATION GREATLY REDUCED

Zija has been a true blessing in my life in several ways. Last year, I personally spent over \$5,000 on medical bills, with a final diagnosis after x-rays, MRI, and a slew of blood work, that I had severe inflammation of the spinal nerve root. Pain pills and muscle relaxants were my prescription. Massage therapy, acupuncture, chiropractic and physical therapy all helped, but I was still living with a lot of pain. Now that Zija is in my life, the inflammation is dramatically reduced, I am sleeping through the night without

waking up, and I have a lot more energy.

I became so excited after experiencing these results, that I began sharing my story and Zija with my clients and friends. My clients have also experienced a wide range of results: lower blood pressure, less joint pain, allergies vanishing, improved moods, and stabilized glucose levels, more energy and better sleep. So in addition to better health, I have started building a successful, part-time business with Zija, simply by sharing this miraculous product made with all-natural, organic Moringa. There are several great products out there, but this one has 36 natural anti-inflammatories and 46 antioxidants—and it works. Thank God for Zija!

—Kelli Robinson, LMT • Butte, MT

LOST 80 POUNDS IN 10 WEEKS

Zija has changed my life. Everyone should experience Zija and its remarkable capability to restore vitality through nutrition. I'm 25 years old, and was living a healthy, active lifestyle, with mountain biking, kayaking, and going to the gym. However, I wasn't able to get my extra weight off. I was introduced to Zija and what happened next was spectacular. I started getting the proper nutrition, and my body began to function at an optimum level. I continued my active lifestyle and the weight began to melt off! I went from 350 lbs. to 270 lbs. in just ten weeks, and I didn't change or add anything except Zija. Before Zija, I often felt tired, but now my energy level is amazing.

—Lee Williams • Jackson, GA

Zija™ Moringa **INTERVIEW** **WITH ITS FORMULATOR,** **RUSS BIANCHI**

What attracted you to the Moringa plant and Zija specifically?

To be truthful, I was quite skeptical when first approached about participating in the formulation of this product. But after reviewing the scientific literature available on the Moringa plant, and after receiving every assurance from Zija executives that I would be given the necessary resources and freedom to create a premier-grade product that met some very high standards, I decided to lead the formulation of Zija's flagship product.

How does Zija's supplement beverage compare with others in this industry?

The short answer is that it doesn't compare. The majority of other beverages marketed as “health drinks” are only masquerading as such. Many of them use a fruit concentrate, which severely diminishes the nutrient content of the product, and frequently contain processed sugars and other synthetics. Others have messed around with nature's intentions, and only contain a few elements or potencies from the original botanical. Or they have simply dumped in this ingredient and that ingredient and called it an “energy drink.” In the end, all you have is a nutrient-diminished, low-grade product.

What is it about Zija that makes it a superior product?

First and foremost, we haven't messed around with what nature intended. Zija's beverage reflects exactly what's in the Moringa plant. In fact, it contains the entire Moringa plant, including the leaf, seeds and fruit, and all of it is organically grown and harvested. Zija has some of the highest

nutrient values of any nutritional product available. Zija is based on science, not pseudo-science. This means that it is enzymatically active, and the body can recognize it because it is natural. In fact, because its formulation and manufacturing are of the highest quality, Zija truly is 100% natural.

Finally, Zija manages its own organic Moringa farms. We perform assays (evaluations) of each batch of the harvested plant in terms of its quality and nutrient density. Zija uses only the best of its own Moringa harvest, which guarantees consistency of quality in the final product.

Is there anything else about Zija that you feel makes it stand out?

What really solidifies Zija as a premier-grade nutritional beverage is its adherence to production standards. There are several standards to which a nutritional product must live up to in order to be considered top-notch.

First, it has to taste great, plain and simple. Next, it must be cost-efficient. It must also conform to existing regulatory guidelines. And finally, it must truly be functional, which means it should do what it says it does on the label, at efficacious dosage levels. Most nutrition products violate one of these standards, and it's usually the functionality standard.

This is usually due to corner-cutting by the manufacturer, and it results in a product that is largely devoid of the nutrients they claim to have, or it is formulated in a way that weakens the potency of the primary ingredients. Zija, on the other hand, strictly abides by these standards. It has a pleasant, natural taste, and it's affordable.

I have been present at every production phase to ensure that the standards we have established are still being employed. What we have with Zija is a premium-quality, pharmaceutical-grade whole-food nutrition beverage. And the results we're getting attest to its effectiveness. ■

Russ Bianchi is one of the world's top food scientists. While Mr. Bianchi acts as one of Zija's product development consultants, he is also the founder of Adept Solutions, Inc., a product development firm. He is an expert in nutritional bio-availability and a highly respected formulator of many well-recognized nutritional products, with nearly 30 years of experience.

BLOOD PRESSURE NORMAL WITHOUT MEDS

I've been fighting high blood pressure for 3 years. A couple of months ago, I resigned myself to the fact that I would have to take medication. I went to the doctor who put me on a medicine. A month later, my blood pressure had not come down. It was 167/102. So, my doctor decided to double my dose. I went out and filled the Rx and it cost me \$54.99. The next day, I received a sample of Zija and I started learning about it. Even from the first day, there was a slight reduction in my blood pressure. Within a week, it was 125/80, with little variance. I believe the 36 anti-inflammatory agents are what's working for me. Today, my blood pressure continues to stay within the normal range without medication. I started with one pack a day (of the Smart Mix) but soon realized I needed two a day for my weight and condition.

I continue to tell people I meet about my results and have signed on many of my family and friends as preferred customers or distributors. My business grows daily. In my second month, I received \$463 in commissions. I've been involved in many other MLMs and never made a dime. Zija is different. People are drawn to the product and all its wonderful benefits and the business just follows naturally.

MY SUCCESS STORY

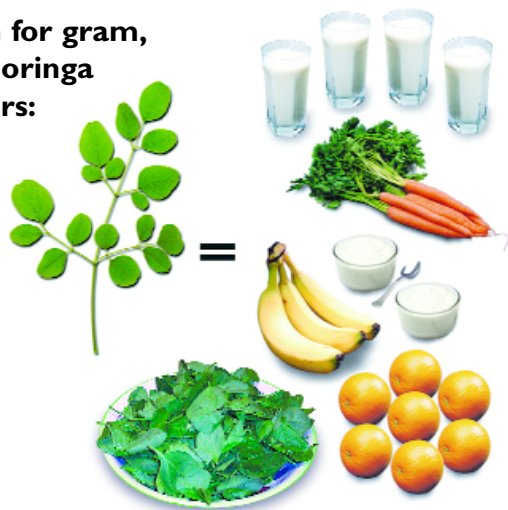

My personal and family's benefits have been numerous. Much better sleeping. Because of tired adrenals due to stress, my sleep was all off, with many poor sleeping nights, now I sleep like a baby. Aches and pains I used to deal with are gone. More severe, long-standing problems, from illnesses as a young man, are clearing up. My too-high cholesterol and triglycerides have gone down, reducing and preventing serious pre-diabetic and pre-heart troubles. I had a test done recently that showed I have the arteries of a 32-year-old, and excellent cellular hydration (water absorption). I am 57.

My daughter's principal called me a few months ago and asked, "What have you been doing with (my daughter)? Her attitude, cooperation and grades have all improved dramatically, her teachers are telling me." I can only attribute this to the great nutrition and increased serotonin levels in her body and brain from taking Zija.

I found Zija at a health fair in Minneapolis last winter. I moved into profitability after the second week of my involvement. After six months, I now have over 150 people in my group, with over 30 active distributors. I have personally enrolled over 50 customers and distributors—my distributors have enrolled the rest for me. I am now earning an average of \$450 per WEEK, part-time. With the accelerated incentive program now in place, I expect that to double quickly.

If you care about getting the best nutrition, I would simply invite you to try this product, and to learn more. If videos work better for you, you can go to the following link and see several more compelling testimonials... the first one on this web page has me on it. These were taken from a recent Zija conference in

**Gram for gram,
the Moringa
delivers:**

- 4x the Calcium of Milk
- 4x the Vitamin A of Carrots
- 2x the Protein of Yogurt
- 3x the Potassium of Bananas
- 7x the Vitamin C of Oranges
- 3x the Iron of Spinach

ZIJA'S MILLIONAIRES IN TRAINING

Many people are hurting financially at this time, yet natural health is flourishing. For an over-view of the Millionaires in Training (MIT) Founders Program, there's a site called OTWLaunch.com with two videos to watch. One is about the Moringa story, the other explains the opportunity. The next one-thousand, fully qualified MIT members will share an additional million-dollar budget and receive more than DOUBLE the usual bonus money, PLUS a percentage of the company's profits from when Zija opens up a major foreign country, plus a free online lead-generating system, and more.

My wish is that everyone will understand the extraordinary value of this plant for humanity. Moringa contains hundreds of substances—vitamins, minerals, enzymes, amino acids, essential fats, and specific phytochemicals (plant-derived), each with clear applications in healing and nutrition. I have tried to remain objective and impartial, although it is hard not to be excited and fascinated by Moringa... You will come to understand why they call her a miracle tree.

— Monica Marcu, Pharm. D., Ph.D.
Author of "Moringa Oleifera: Miracle Tree"

When I invite people to this opportunity, some mention their dislike for the MLM, direct-marketing model. Yet, my experiences with this company have been nothing but exceptional—across the board. I've come to see that this form of doing business is a WIN-WIN. I can't succeed unless I help the people in my group to succeed. You've just read some of these people's stories. Didn't they inspire you too?

If you are looking for part-time income (or ultimate financial independence through residual income)—if you're searching for an escape from the "dollars for hours" dead end—then you may have found it with Zija, sharing this all-natural, organic, full-spectrum nutritional and medicinal beverage, made from the most remarkable healing tree on the planet.

Nourish your body with whole-food Moringa and see how its powerful nutritionals and medicinals will help your body heal itself. ■
